Awards of the Mixed Commission.

NEW YORK, Oct. 1.—The whole number of claims submitted to the American British Mixed Commission was 4,007; claimants' reclamation in the aggregate was the enormous sum of $90,000,000. Of these only 181 were allowed, the gross sum of awards on which reached $1,920,236. It appears by examination of the claims which were favorably considered, that awards were only made against the United States in cases where the property taken was used or appropriated by authority of the United States, and in cases of illegal imprisonment of British subjects during the war.

Particulars of the Death of Dr. Hall.

NEW YORK, Oct. 1.—A special correspondent of the *Tribune* at Dundee, gives interesting details of the adventures of the rescued crew of the *Polaris*. Schumann, first engineer, says, after their return from their northern journey, on coming into the cabin, Captain Hall turned sick, lying down, and vomited a great deal. He would not eat anything at first. Afterward he asked for a cup of tea. He got the tea, and he had no sooner partaken of it than vomiting returned more violently than before. About six hours afterwards he became delirious and continued in this condition three days. On recovering his senses, however, he grew better, got up and wrote up his Journal. He also attended to his various other duties as if he had been in his usual health, but never went out. Ten days afterwards he was again seized with a relapse, and until the night of the 7th, when he became calm. Seeing Dr. B[illegible]els near he called him and said, "I am very much obliged to you for the kindness you have shown me, Doctor." After uttering this he relapsed and was dead in the morning.

New York Democratic State Convention.

UTICA, Oct. 1.—The Democratic State Convention met here at 12:30 this afternoon, and was called to order by A. C. Beach, Vice President of the State Committee. The Convention being temporarily organized, Committees on Credentials and Permanent Organization were appointed. A resolution was offered inviting the co-operation of Liberal Republicans, and immediately Thos. C. Creamer, contesting delegate of the Apollo Hall party, made a speech, disregarding the gavel and calls to order by the Chairman and his colleague and shouts of the delegates. The confusion was so great that only an occasional word of his speech could be heard, by which Creamer was understood as denouncing the Convention. He charged the Chairman with packing the Committee on Credentials, and threatened to withdraw. The scene was ended by the Convention taking a recess.

All Quiet in Wall Street.

NEW YORK, Sept. 30.—The day in Wall street has passed in a more satisfactory manner than the most sanguine dared to hope. The general markets closed quietly without a particle of excitement in any direction. At the Stock Exchange a calm and conservative feeling characterized the dealings throughout, and while many sold stocks for cash to complete settlements, it is but just to add that there was a spirit of forbearance between the members and also between money lenders and brokers generally. Delivery hour finally came, and with it the important announcement from the committee appointed to settle differences between members, that there was not one single default.

An application was made in the U. S. Circuit Court to-day for an injunction against the Comptroller of Currency and the receiver of the Bank of the Commonwealth, against further proceedings in bankruptcy, and for a citation to show cause why the receivership should not be vacated, on the ground that the bank never refused to redeem its circulating notes. YREKA, Oct. 1.—The eighth annual Fair of the Siskiyou county Agricultural Society commenced here to-day. Most of the day has been occupied in receiving, entering and classifying articles. The display so far greatly exceeds any previous year of the first day. There are more visitors in the pavilion, which presents the finest appearance of anything of the kind ever seen in the county before. At the Fair grounds the exhibition of horses, cattle, sheep and swine is good, but many more are expected to-morrow. There were two races to-day: the first a trotting race for the 3-year old colt stake of 1873, mile heats, two in three. There was $150 added to the stake, making $350 in the purse. There were four entries; two started, Eckhart's Romeo and Gregg's Caledonia. The latter won by distancing the former in the first heat. Time, 3:43. The second was a running race, mile heats, two in three, for three and four year olds; two started, Judge Shearer (by Gladiator) and Red Fox (by Glencoe). The former won two straight heats. A MONSTROUS BLUNDER.—A comical story comes from Paris, the authority being a correspondent of the *Pall Mall Gazette*. The Shah of Persia, when in Paris, went to the Jardin des Plantes and was very much pleased with what he saw there, and with the courtesy of the Director, so much so indeed, that he took note of the names of such men of science, with the view of remembering them in the [illegible] the museum, and unluckily the two sets of names got mixed up together. So it happened that when the men of science received Persian decorations, so also did the megatherium, the dinotherium and other fossil wild fowl of the same character.

PATRONS OF HUSBANDRY

SESSION OF THE STATE GRANGE OF THE PATRONS OF HUSBANDRY.

Third Day.

SALEM, Sept. [illegible]

EVENING SESSION.

Report of Committee on Resolutions read and referred back, and Bro. J. H. Smith added to the committee.

Report of Committee on State of the Order received and amended. Moved and carried that the report as amended be adopted. On motion the committee was discharged.

REPORT OF COMMITTEE ON THE STATE OF THE ORDER.

Your Committee on State of the Order beg leave to report:

That notwithstanding our Order having been but recently organized in Oregon and Washington Territory, we have accomplished much towards the furtherance of our objects and principles, and from the earnestness with which our people are entering into the movement we feel confident that we can and will succeed in carrying out our purposes.

Resolved, That in addition to the various purposes of the Patrons of Husbandry, as set forth in the Constitution and By Laws, looking to our social, intellectual and material advancement, we, as the State Grange of Oregon and Washington Territory, believe it our duty to mature and put in practice, through our Subordinate and State Grange, at the earliest possible date, the most feasible plan for accomplishing the following objects:

First—The establishment of a co-operative system of trade, by which producers and consumers shall deal as directly with each other as possible.

Second—The purchase of farming implements, machinery and sacks at the manufacturers' lowest rates, making no invidious distinction in the mode of purchasing headers, mowing machines and farming implements.

Third—The disposal of our grain and other farm productions at the highest market value, or direct shipments on the most favorable terms, or the storage of our grain at low rates, drawing upon it advances to the largest amount practicable at the lowest rates of interest, receiving sack for sack in its delivery.

Fourth—The establishment of Grange stores.

Fifth—The gradual substitution of cash for credit system.

Sixth—The eventual introduction of shipment in bulk.

Resolved, That we believe it our duty to endeavor to secure by all legitimate means such legislation as will best protect us against all ills of which we may justly complain; to labor for reduction and regulation of railroad freights and fares, and the reduction and regulation of ocean freights by reducing port charges, by abolishing the present system of rechartering ships, by giving timely information to ship owners throughout the world of the amount of freight we can furnish them, with a view to chartering sufficient tonnage for our own purposes, and by offering other inducements to draw to our coast such shipping as will amply meet the requirements of each season, including among these inducements the importation to our State of the best classes of European laborers.

Resolved, That the interest of farmers, mechanics and our laboring classes are too closely allied to admit of any estrangement, and we deem it our duty to patronize home mechanics in preference to foreign, and would here say that ours is not an organization for the purpose of reducing or degrading mechanical or field labor, but we consider it our best interest to bestow liberal patronage and fair remunerative wages on the mechanical and laboring skill of the country. Although we propose to dispense with the services of the middlemen and buy directly from the manufacturer, while we ship direct to the consumer, we fail to see in what way the mechanic or laboring man is to be injured. Our experience already proves there is a material difference between the manufacturers' prices and that of the retail dealer, also between the producers' prices and that of the European consumer. These differences being in our favor, when we deal directly with the manufacturer and consumer we have money left to pay other manufactured articles, and extend our various enterprises, thus increasing instead of diminishing the demand for mechanical and other skilled labor.

An address, sent out by the Executive Committee of the State Grange of California, was read by Worthy Deputy N. W. Garretson.

The Committee on Resolutions, to whom was referred their report, reported back the resolutions with an amendment. The amendment was adopted. A motion was made to adopt the report as amended, whereupon Worthy Deputy N. W. Garretson vacated the Chair, and left the Grange in charge of the Worthy Overseer. The motion to adopt was carried by a unanimous vote.

REPORT OF THE COMMITTEE ON RESOLUTIONS.

The Committee on Resolutions beg leave to submit the following report:

WHEREAS, The improvement of the Willamette river and its tributaries is of almost vital importance to the farmers of Oregon, a large portion of whose products are now locked up for want of means to move it to the seaboard; and

WHEREAS, Said improvements have been neglected and overlooked by the powers that be, to the great detriment of the masses and the building up of the few; therefore, be it

Resolved, That our Senators and Representatives in Congress of the United States are requested to use their utmost endeavors to have said river improved on the plan of the great Kanawha in West Virginia, or some other good plan.

Resolved, That the friends of Husbandry in Congress be solicited to assist them to accomplish this much desired object.

Resolved, That a copy of these resolutions be forwarded to each of our Representatives.

RESOLUTION OF THANKS.

Resolved, That we regard the appointment of Bro. N. W. Garretson as Special Deputy for this coast as most fortunate, and thus express our conviction that he is preeminently the right man in the right place.

Resolved, That in our intercourse with him we have found him a most courteous gentleman and thorough instructor, and that we heartily thank him for his constancy and patience in the discharge of his official duties.

Resolved, That during his further stay among us we will welcome him to our homes and Granges, commending his family to the protection of the Great Master above, and upon his final departure henceward we will follow him with our earnest prayers for a pleasant journey and a safe arrival, hoping soon to welcome him to a permanent residence on this coast.

Resolved, That we hereby declare Bro. Garretson the first honorary member of the State Grange of Oregon and Washington Territory.

Resolved, That the thanks of the Grange are due and are hereby tendered Bro. W. J. Campbell for working up and organizing Subordinate Granges in this jurisdiction, and that a copy of this resolution be forwarded to him.

Resolved, That we, the State Grange, tender our sincere thanks to the Masonic fraternity for the use of their hall, and that a copy of this resolution be presented them.

Resolved, That the State Grange tender our sincere thanks to the Secretary of State for the use of the Representative Hall, and that a copy of the resolution be presented him.

WHEREAS, Bro. W. H. Nash, of Napa Grange, Cal., has left his family at home and his farm, and this without expense, accompanied our Worthy Deputy on his mission to Oregon and Washington Territory, giving his efforts and the counsels of his valuable time to the work of building up our cause in this jurisdiction; therefore, be it

Resolved, That we recognize in this disinterested act of our worthy Bro. Nash, and in his devotion to our noble cause, an example of self-sacrifice worthy of imitation by every Patron. And we hereby express our appreciation of his valuable services, and tender him our sincere thanks for his good and diligent work in the State of Oregon and Washington Territory. And we submit this in the hope that it will not only be adopted, but that it may be spread on the minutes of this Grange, and a copy thereof presented to Bro. Nash.

EVENING SESSION.

The Grange met pursuant to adjournment, the Worthy Master in the chair. The Grange was opened in due form, when Worthy Deputy N. W. Garretson proceeded informally to confer on the members of the Grange the degree of Pomona.

PRESENTATION OF A CANE.

After the business of the State Grange was completed, and immediately upon the adjournment, John H. Smith, Anthony Simpson and Orley Hull, a committee appointed by the Order for that purpose, approached Deputy N. W. Garretson and presented him, in behalf of the members of the Order, with a beautiful gold headed cane. The presentation speech was delivered by John H. Smith, and is said by those who heard it to have been probably one of the most eloquent and appropriate presentation speeches ever delivered in the State.

Mr. Garretson's reply was feeling and appropriate, and is said to have drawn tears from the eyes of nearly all present, the speaker's own emotion almost overcoming him. It was a complete surprise. Mrs. Chloe Olds then, in behalf of the ladies, presented him with an elegant present for his wife, and also presented W. H. Nash, of the California State Grange, with a superb set of sleeve buttons.

A Turbine water wheel, rated at 75 horse power, or three times the size of the one it is to displace in the water pipe manufactory at Tumwater, has been shipped from San Francisco for the company. The business of the company is increasing rapidly, and they have to introduce new machinery every few months to enable them to keep up with the demand.

Times are lively in Lemhi county, I. T.; considerable mining going on, and good crops in Lemhi valley. The quartz interests in that section are attracting much attention, and one ledge owned by Mike Spahn and several other gentlemen was recently sold for the sum of $25,000 to parties who intend putting up machinery at once for crushing the ore. Judge Beatty owns a rich quartz ledge twenty five feet wide and is working it. But little mining has been done this season in Prairie and Stanley basins and at Yankee Fork, and the mining camp at Deadwood is abandoned.

Says a Walla Walla paper: It costs $8 to get a ton of wheat to Wallula, a distance of not thirty miles. This added to the transportation to Portland, which, taking all things into consideration, is reasonable, makes a sum that no class of producers, no matter how wealthy they may be, can pay and live. There is one remedy for this disastrous state of affairs *and only one*, and that is the construction of a railroad from this city to the Columbia river. This road is an actual want, the necessity of which has been settled in accordance with the laws of trade and nature, and to fail to construct it will work an irretrievable loss to the people of this Valley.

A CURIOUS LIBEL SUIT.—A Mr. John McElgun, a young Irish author, has just been arrested in New York and placed in Ludlow street jail on a charge of libel preferred against him by Mr. John G. Carey, a house painter, for publishing the following alleged libelous remarks in a book written by Mr. McElgun, called "Annie Reilly, or The Fortunes of an Irish Girl in New York," and published by a Barclay street publisher.

Mr. Carey alleges in his complaint that in said book defendant is called by name "Johnny Carey," and is alluded to by Mr. McElgun as [illegible] hearted hypocrite [illegible] crawling [illegible] slaughterer [illegible] religion [illegible] systematic [illegible]

The prisoner, who is a very intelligent young man and a native of Mill[illegible], near [illegible] county Cavan, Ireland, says that the name of Carey is an imaginary one, and that his Carey is a pig jobber and hog slaughterer, and that his character is in Munster, Ireland. He looks upon the matter as a capital joke, and says that Carey has no case. Mr. Carey is very angry over the affair.

WASHINGTON COUNTY FAIR

SEVENTH ANNUAL EXHIBITION OF THE WASHINGTON COUNTY AGRICULTURAL SOCIETY.

Third Day.

WEDNESDAY, October 1st.

A footing up by the officers of the receipts of Monday and Tuesday was made last night, and showed the amount taken in at the gate and as entry fees to be just $2,000. This is considered a very good beginning and indicative of a financial success of the Fair.

The sun rose this morning in a clear sky, but his rays reached mother earth in a sort of dim and sickly glare, this vicinity being enveloped in a tolerably thick mantle of smoke. One man who had evidently partaken of something not allowed to be sold on the Fair ground, on seeing the round red disc of the "king of day" as the sun came up, remarked that "the moon had hung a red blanket on her front side." This man, it must be understood, was not a Portland [illegible]

But by 10 o'clock the fog and smoke partially cleared away, and barring the dust the atmosphere was clear enough to let the sunbeams through very freely. The people began to assemble about this time in much greater numbers than had attended on either of the previous days, and by noon it was estimated that there were three thousand people on the ground.

ENTRIES.

On an examination of the entry books kept by the Secretary we find that the total number of articles and animals entered for exhibition this year is 435—classified as nearly as could be ascertained about as follows:

Class No. 1—Horses, thoroughbred, 15 entries.

Class No. 2—Horses of all work, draft horses, jacks and mules, 46 entries.

Class No. 3—Cattle, shorthorns and graded durhams, 15 entries.

Class No. 4—Sheep, 64 entries.

Class No. 5—Swine and fowls, 19 entries.

Class No. 6—Grain, seeds and vegetables.

Class No. 7—Green and dried fruits, 11 entries.

Class No. 8—Flowers and fancy work, 45 entries.

Class No. 9—Dairy products and housework, 136 entries.

Class No. 10—Mechanical department, 1 entry.

Only one competitor for the prize to be given to the best and most graceful lady rider has yet enrolled her name in Class No. 11. No gentleman had entered the lists for the premium in this class at noon to-day.

Class No. 12 includes 7 entries for the prizes to be awarded to the best shot with a rifle.

PREMIUMS.

We were unable to obtain anything like a correct list of the premiums awarded in the pavilion or near all those given to the horses, cattle and sheep, as the various committees have been very busy all day deciding upon the merits of the respective competitors. Inside the pavilion they were not through their work when the train left for Portland at 4 P. M., and the Committee on Sheep and Swine were still at work about the various stalls where these animals are kept.

THE NEAT CATTLE.

According to the decision of the judges, Messrs. W. A. Mills, Wm. Chalmers and Geo. Morrow, A. Lueling, Esq., [illegible], are now wearing their blue ribbon and the [illegible] best the red, as follows: G. [illegible], Durham bull, three years old and upward, a fine white animal, four years old, entered by Thos. Tucker, well [illegible] and [illegible], weighing 1,000 pounds, first premium.

A roan bull, three years old, compactly built, splendid loins and quarters, and weighing 1,550 pounds, entered by Robert Imbrie.

The premiums given to shorthorn Durhams were all carried off by the stock belonging to S. G. Reed, Esq. The awards were made for best bull three years old and upward, first premium to Gov. General. For best bull one year old and upward, first premium to Lord of the Valley. For best bull calf, first premium to Mt. Hood. For best cow, three years old and upward, first premium to Rosy Sove[illegible]gn, and second to Glossy Woodbine. For best two-year old heifer, first premium to Bell Flower. For the best heifer calf, first premium to Glossy Sixth, called in our reporter's day, "Gem of the Fair Ground." This calf is said by good judges to be equally as good in blood, form and size as some of the $10,000 calves in the old herds at the East and in Great Britain.

Mr. Reed's Ayrshire cows also took the premiums offered for specimens of that breed, Beauty carrying off the blue ribbon and Blooming Daisy the red, though our judgment would have been the blue to the latter and the red to the former. The yearling heifer, "Lady Mars," and the calf "Primrose" also each obtained a blue badge.

THE CHALLENGE CUP.

A most elegantly wrought silver vessel, gold lined, 9 inches high, weighing 14 ounces and valued at $100, was offered to the best shorthorn bull of any age. The entries for this splendid prize all belonged to Mr. Reed, and were Governor General, Lord of the Valley and Mount Hood, described in yesterday's report. When they entered the ring for exhibition and inspection, the general expression was, "What splendid animals!" for none could look upon without admiring them, and we dare the assertion that as fine a display of cattle, of the same number, was never seen on the Pacific coast before. The judges were troubled to find any great difference in favor of either, but at last decided to give the cup to Lord of the Valley, a verdict generally agreed in, though we thought Mr. Watson felt just a little regret that Governor General had to succumb on this his tenth contest, it having been exhibited nine times and never came out second best before.

The cup is inscribed "Subscription Challenge Cup, open to the whole Pacific Coast, awarded to the best Shorthorn Bull at the Washington County Agricultural Society's Fair, held at Hillsboro, Sept. 29, 1873."

THE HORSE DEPARTMENT.

The entries here are about 60, and the Society offer $51 first premiums, and the same number of second premiums, on this annual. The Superintendents of the two classes embracing horses are Hamilton Boyd, Esq., of Portland, and S. Hughes, Esq., but just how they divide their labors we are unable to understand, though they are both kept pretty busy directing affairs.

The premiums have all been awarded with the following result, as far as we could ascertain, though the hurry has been so great to-day that a full report cannot yet be made up.

THOROUGHBREDS.

Through some misunderstanding or hitch in the programme, some of those who had made entries in this class did not exhibit their animals, and the result was that time was taken in the matter, the issue of which will be given to-morrow.

HORSES OF ALL WORK.

For the best stallion four years old and upward, S. J. Stott entered Ben Holladay and Wm. West entered Kalama Jim. The first named took the blue ribbon and the latter the red.

For the best three year old stallion, W. G. Scoggins' horse Alt. [illegible] Norwich took the first prize.

For yearling colts in this Class, P. Newton's bay took the first, and J. Freeman's white Young Arabian the second prize.

W. G. Scoggins' colt Idlewild also took a first premium against H. Wooley's Fanny, who carried off the red ribbon in the contest between the two year old fillies.

For the best brood mares, Thos. Tucker's sorrel took the first, and G. M. R[illegible]'s bay the second premium.

DRAFT HORSES.

For the best span of draft horses, Wm. Barrett entered a pair of bay geldings and W. G. Scoggins entered a sorrel horse and a brown. Barrett received the first premium and Scoggins the second.

For the best span of brood mares, S. G. Reed entered Kitty Fisher and Jenny, two Clydesdales, and Wm. Chalmers two bays, the four being a magnificent lot, the two former possessing perhaps more power, but the bays seeming to us to be endowed with [illegible] motion and more beauty. The Clydesdales took the first premium, and the bays the second.

For the best stallion of four years old and upward there was but one entry, Dick [illegible], a powerful dark brown horse, owned by W. G. Scoggins. He wore off a blue ribbon.

For the best three-year old, Thomas [illegible]er's horse John captured the first prize; for the best yearling, Young Arabian, entered by J. Freeman, won the first premium. Judges in this class, embracing horses of work, draft horses and thoroughbreds: J. N. Beak, Walter Freeman and Z. W[illegible].

There were several other horses to which premiums were given, but a full list [illegible] be had.

TRIALS OF SPEED.

There is something in a horse race [illegible] peculiarly fascinating to people [illegible] to the "Webfoot" [illegible] time arrived, the general attention of the crowd turned toward the [illegible] of speed was between [illegible] open for all, one half mile and [illegible] were made by Wm. Portland, Oregon, Sept. 16, 1873.

The Daily Oregonian.

THURSDAY MORNING, OCT. 2, 1873.

ONE OF THE CAUSES.

In a previous article we have shown that while the quantity of grain produced and shipped to tide water from the West increased over thirty-six per cent. in the ten years ending with 1872, there was an actual decrease of nearly fifty per cent. in the quantity shipped by New York canals during the same period. Moreover, the trade of Montreal advanced from $82,-900,000 in the three years ending with 1868 to over $150,000,000 in the three years ending with 1873—an increase of nearly eighty-five per cent. In discussing this exhibit the New York papers concede the imminent danger to the commerce of that city, and the remedy they propose consists in enlarging the capacity of Erie Canal. Montreal, say they, is actively engaged in adding to her natural advantages. She has provided spacious docks and all the needed terminal facilities to handle her increasing commerce cheaply and quickly. Navigation on the St. Lawrence has been improved so as to admit the passage of vessels drawing twenty to twenty-two feet of water. With the Welland canal completed, grain will be delivered [illegible] from Chicago to New York during the [illegible] for 14 cents per [illegible] Meanwhile, the average rate by [illegible] from Chicago to New York during [illegible] year was 21 cents per bushel. In the [illegible] of the latter fact New York economists [illegible] that "her (New York's) trade [illegible] not be diverted from her if she makes the proper effort to retain it. That consists in enlarging the capacity of the Erie [illegible] to Buffalo." This is the view taken [illegible] the New York *Times* in its issue of the [illegible] after a careful survey of [illegible] whole subject. And yet in the very [illegible] of the *Times* from which we have [illegible] we find Mr. Havard testifying [illegible] the Senate Committee on Transportation [illegible] that there are vessels [illegible] in the lake trade with a freight [illegible] of 70,000 bushels. And in another [illegible] we find that "several charters have recently been made to carry [illegible] Chicago to Buffalo at fifteen [illegible] per bushel, although a rate of six [illegible] is understood to be a paying [illegible] The profit on a single voyage of [illegible] vessels, then, is the difference between $10,500—the gross earnings [illegible] and $4,200, the receipts at a [illegible] paying rate, or $6,300 per [illegible] is but one conclusion to be [illegible] statistics, and that is: [illegible] control over [illegible] of the West, already so perceptible, [illegible] must first compete [illegible] in cheap transportation. [illegible] with some degree of [illegible] By the [illegible] to Montreal [illegible] would dwindle [illegible] her [illegible] while [illegible] would in[illegible] dependence [illegible] The rich prize is [illegible] in any [illegible] she may [illegible] in the struggle for ex[illegible] laws.

[illegible] WRONG SCENT.

[illegible] strive to convict the OREGONIAN [illegible] to the Republican party, [illegible] day published the [illegible] who has all along been the [illegible] is Mr. Geo. Strong. [illegible] We are informed [illegible] in Salem, [illegible] candidate [illegible] He had [illegible] do so, of course, but the circumstances [illegible] of the easy [illegible] to the [illegible] of the [illegible] this year. [illegible] the above the *Bulletin* [illegible] it is all right after all, for [illegible] is constantly growing more [illegible] with itself, and now that it has [illegible] Democratic it very properly [illegible] editor who participated in the [illegible] and entered politics by en[illegible] Democrat." In answer to this [illegible] to say that the editor of [illegible] is not a Democrat, that he [illegible] for Horace Greeley, but that [illegible] for U. S. Grant in 1868, and [illegible] Furthermore, he has always [illegible] the Republican ticket—when he [illegible] at all. Even if this were not the [illegible] not in all likelihood suffer [illegible] to be [illegible] out of the Republican [illegible] by a [illegible] who was a rabid secessionist [illegible] the struggle for the preservation [illegible] Union, and whose paper was suppressed [illegible] ago for its [illegible] Mr. Geo. E. Strong is not the editor of the OREGONIAN.

A FALSEHOOD REBUKED.

The *Bulletin* of yesterday contained the following under the heading "Editorial Change":

> It is stated that W. Lair Hill has vacated the editorial chair of the OREGONIAN, and that Mr. Geo. E. Strong, of Salem, is now editor of that [illegible]

We consider it quite probable that H. A. Scott, when he wrote the above knew it to be a falsehood, utterly malicious in spirit and without foundation in fact. Mr. W. Lair Hill is now absent on a business visit to the East, having been called thither by urgent matters. He is still editor of the OREGONIAN, has never for a moment entertained the idea of resigning his position, and will return, God willing, within six weeks to make it hot for the cowardly associate editor of the *Bulletin*, who attacked him in the most scandalous manner on the morning of his departure.

A Verdun dispatch of Sept. 11th to the London *Times* narrates an incident relating to the departure from French soil of the German army of occupation, which looks as though the Prussian General, taking advantage of the [illegible] ill-disguised impatience, had blackmailed [illegible] C. to the tune of a million francs. It is [illegible] that at 11 o'clock, when the little question of indemnity was believed to be settled, the [illegible] suddenly remarked that an extra million of francs was due them for having kept up a postoffice for the benefit of the French Government during the occupation. In answer to the natural demand for items of expenditure they said that they had made an [illegible] estimate of the indebtedness. The [illegible] native of payment was prolonged occupation. After due consultation, the Government at Versailles ordered the payment of the claim. We are assured that the incident actually happened.

Vice-President Wilson has written a letter to General M. T. MacMahon declining the Presidency of the Cuban League—which office had been tendered him—wherein he says he has specially sympathized with the Cuban patriots in their struggle, because he regards their success as involving not only their own disenthrallment from a grinding despotism, but the cessation of the terrible slave trade which finds in Cuba its last stronghold. He expresses a hope that the citizens of the United States will go as far as the law of the land, and the honor and good faith of the nation will permit, in demonstrations of interest and expressions of sympathy. Mr. Wilson's reason for declining the compliment tendered him is stated to be the condition of feeble health which forbids his assuming new responsibilities.

Perhaps we could find no happier illustration of the oft-quoted saying, "Time at last makes all things even," than is afforded by the experience of Congressman Wm. G. Donnan, a salary-grabber from Iowa. William was wandering through the grounds at the Iowa State Fair when a pickpocket laid profane hands on $140 of that back-pay, and strode off some ten minutes before Donnan discovered his loss. An exchange in narrating the incident says: "Mr. Donnan is indignant, but he ought not to be. The pickpocket has as much right to that money as he has."

OREGON.

The Union County Fair will come off at La Grande on the 15th, 16th and 17th.

The Street Commissioner at Salem is cleaning up streets most traveled during fair times.

Fires in the woods near Salem are creating a dense smoke, affording a daily item for the papers.

The citizens of La Grande offer a lady's saddle of the value of forty dollars to be awarded to the best lady equestrienne at the Union County Fair.

A three days' meeting is to be held by the Spiritualists at Woodburn, on the O. & C. Railroad between Salem and Oregon City, commencing to-morrow.

The firm of Root Bros., blacksmiths at La Grande, ceased doing business last week. Samuel Root, the elder, will open a shop at Island City, and Joseph will try his fortune in Silver City.

The fitting up of booths at the State Fair Grounds has begun, and many persons from the adjoining counties have made their appearance in Salem with the intention of arranging for the Fair.

On Sunday morning last the floor of a grain bin, on Mr. S. Haight's farm, in Linn county, gave way under the great weight of grain, precipitating seven or eight hundred bushels of oats on to the ground below.

Mr. W. S. Newbury, agent of C. B. Comstock & Co., of Albany, on Monday night loaded twenty cars with wheat. It took nearly the entire night; but the cars were loaded and started for Portland on Tuesday morning.

Owing to the limited number of teachers in attendance at the Institute at La Grande, on the 25th ult., it was deemed advisable to adjourn over all spring, or until such time as the Executive Committee sees proper to call it [illegible]

The four men arrested for gambling at the Linn county Fair have been disposed of by Judge Carothers—two of them on Saturday, and the other two on Monday—found guilty as charged, and fined. The fine and cost amounted to $60 each, or a total of $240.

The Albany *Register* says: "Wheat still comes pouring into the city. Those who laughed at the assertion made in the *Register* a few weeks ago that Linn county would turn out in the neighborhood of a million and a half bushels of wheat, now agree that a million and a quarter bushels will not be placing the yield too high. It is also believed that there are 300,000 bushels of flax and 500,000 bushels of oats to be counted among the surplus products of Linn county for 1873. If these figures are correct, then our prediction that two millions of dollars would find its way into Linn county this fall for her surplus produce, isn't so far out of the way."

GENERAL NOTES.

A clergyman in Pennsylvania, instead of saying, "Let us pray," says "Let us interview the throne of grace!" The dominie had once been a reporter.

Charles Reade's latest novel, "A Simpleton," is a composite story, in which he makes no concealment of the sources whence he derives characters and illustrations, but parades them in a long list of authorities. This shows him rather sensitive to the charges of plagiarism so freely made against his recent novels. The story itself is highly sensational. If it were not it would not be Charles Reade's.

The proprietors of the Chicago *Inter-Ocean* have decided upon changing the form of that paper and abandoning their blanket sheet for the more convenient and metropolitan quarto, with six wide columns to the page. The columns will be about the same width as those of the New York *Tribune*, and the type and general make-up will be something after the style of the *Tribune*, making a larger and handsomer sheet than either of its Chicago rivals.

The following calm and dignified specimen of journalism is from the Westville (Miss.) *News*: "Would that an avenging heaven would send a deserving thunder-bolt and strike the corrupt carcass of this archfiend, Ames, from this green earth, and consign it to the worms of the dust, and that his blackened and polluted spirit might descend into the bottomless pit, and there, amid the smoke of its torments, writhe and wrangle forever and forever."

Among the papers found in the *Bastile*, now edited by M. Ravaisson, will shortly appear a startling document, showing that Racine was summoned before King Louis XIV. as accused of having robbed and poisoned La Dupare, a celebrated actress, for whom he composed the part of Andromaque, and who was his mistress till the time of her death, in 1668. The accusation, coming as it did from the infamous woman, Voisin, tried, condemned and executed as *empoisonneuse*, could not be entertained for a moment; but it heavily weighed on the exquisitely sensitive mind of Racine till he died broken-hearted, in 1699.

RELICS OF THE MAMMOTH.—The schooner *Ursula* which arrived a few days ago from Alaska, and which now lies at the Market street-wharf, has a curious cargo, consisting as it does of thousands of furs of wolves, otters, foxes, beavers, seals and bears, and hundreds of fossil bones and walrus teeth. Several tusks in her cargo are of immense size, being as much as eight feet in length, and one is an antediluvian curiosity. It is about ten feet in length and nine inches in diameter, and all of solid ivory. Hutchinson, Kohl & Co., the agents of the Alaska Commercial Company, have secured it, and intend putting it up in their office as a curiosity. It was dug from the earth in the vicinity of Kotzbue Sound, Alaska, last summer. When found it lay very near the surface, with one end exposed.

Some ogre of an editor tries to frighten tender consciences by telling young ladies that when they exclaim "Dear me!" they are swearing like troopers. Yet such is the fact; for the phrase, as we have it, but the corruption of the Italian words Dio Mio, "My God!"

BUSINESS NOTES.

The Daily Oregonian.

THURSDAY MORNING OCT 2 1873

CITY.

OFF THE TRACK — As the westside train came down from the south last evening, a very narrow escape was run from a terrible railroad disaster at a point about two miles and a half from this city. In passing over a switch the wheels of the locomotive struck one end of the rail and split it off a piece. The force was sufficient to throw off the wheels. The train very fortunately was moving slowly. The engineer whistled instantly for the brakes and reversed the drivers. However the locomotive went jumping along over the ties for about 75 feet before the train halted. None of the cars were thrown off the track. At that point the track runs along over an embankment 25 feet high. Before the locomotive but a few yards when she was brought to a halt, was a bridge about 75 feet high. Had the train moved a little further forward everything would have rolled to the bottom. Some delay occurred in getting the locomotive back on the track when the train came on down.

MAYOR'S VETO—Last evening as will be observed by the regular proceedings of the Common Council Mayor Failing returned two ordinances to that body without his approval. One of these ordinances provided for the rebuilding of engine houses for Protection Company No 4 and Vigilance Hook and Ladder Company No 1. Both these contracts were embodied in one ordinance. By an examination into the title of the land on which the building for Vigilance was to be erected, it was ascertained that some serious defect existed which it was found would be necessary to remove before the contract could be let. As the proposition for both houses was included in one ordinance the Mayor had no option but to veto it. The veto was unanimously sustained by the Council. Subsequently an ordinance, providing for the rebuilding of the engine house for Protection, was introduced and passed. The Mayor also vetoed the ordinance for the cancelation of the contract for the improvement of Harrison street, for good and valid reasons which decision was likewise sustained by the Council.

TAXABLE PROPERTY —The assessment rolls for 1873 have been completed, and show the following amounts of taxable property in Multnomah county. Total number of acres, 13,308, average value per acre, $11 28. Gross value of land, $1,470,945, value of all lots, $7,361,725. Value of merchandise and implements $2 836 734, value of money and accounts $2,109 576, household furniture, $393,674, number of horses 1,423, average value $60 56, gross value $86 795. Number of horned cattle, 4,541, average value, $18 55, gross value $84, 257, number of sheep, 2,860, average value, $2 18, gross value, $6,241, number of swine, 1 165, average value $3, gross, $3,518; indebtedness within the State, $1,240,739, exemptions, $258,064, gross value of all property, $14,353,465, net amount of taxable property after deducting debts and exemptions, $10 804,062.

SMOKE AT SEA —A number of vessels are due here from various ports, but at latest accounts none had appeared off the mouth of the Columbia. The non-arrival of vessels may be attributed in part to the prevailing smoke which hangs off the bar. To approach the coast when it is so thick that it is difficult to see two lengths ahead of the vessel is rather hazardous. We learn from the master of the *Free Trade* that he encountered clouds of smoke over 90 miles from the shore, where it had been wafted by winds. In consequence of the prevailing thickness he was delayed some time. There is little doubt but what a number of vessels are now lying off the coast, patiently waiting for the smoke to be dispelled so as to enable them to sail in.

QUEER ROOSTING PLACE.—Yesterday morning an owl found his way into the County Clerk's office and roosted on top a case of pigeon holes, where he stayed quietly all day, changing his position only once. He looked wise, and occasionally winked at the curious who looked at him with a good deal of interest. When the office was closed in the evening he was caught and carried down the street, and at last set on the gate-post in front of one of our churches. He seemed to take the change of [illegible] philosophically, and when last seen was sitting "like a knot on a log," doubtless waiting for something to turn up."

LEG CUT —A butcher residing in East Portland, whose name we have not been able to ascertain, cut himself severely on Tuesday. While engaged in skinning a slaughtered animal, he made a false movement and plunged the knife blade into his left leg several inches above the knee. Fortunately, no artery was severed, although the blade penetrated nearly to the bone and passed close to the femoral artery. A surgeon was called and the severe wound dressed. He will be obliged to use a cane for some days.

PRIZES WON.—The raffle for the oil paintings, executed by Mr E. T Coleman, came off last evening, with the following result:—First prize, "The Burnt District" won by W A Holbrook. Second prize—"Mount Hood," won by Mr. C. H Woodard. Third prize—"Mount St Helens," from Marquam's Hill, won by a well known gentleman of the city.

STEAMER SHOO FLY —Two 'pitmen' were finished yesterday and taken down to the steamer *Shoo Fly* which is being rebuilt at the lower sawmill. A number of carpenters are engaged on the cabin and upper works. The present intention of the company is to have the *Shoo Fly* ready to make the trial trip in two weeks.

PUBLIC SPEAKING —J. W Nesmith, Democratic nominee for Congressman addressed a large number of the citizens of Portland at Oro Fino Theater last evening, on the political issues of the day.

FREE OF CHARGE —We are requested by Mr Estes, Superintendent of the Street Railway to state that no charge is made for Sisters of Charity who may have occasion to pass over the line.

AMUSEMENTS.

Our citizens are requested to bear in mind that the Portland Hibernian Benevolent Society will give a grand concert at Ankeny's Hall this evening. Aside from the attractions of a most excellently arranged programme the Society are certainly entitled to an overflowing house. This Society is one of the oldest of the State, having been organized many years ago in Portland. Its membership is large and composed, with scarcely an exception, of our best and most esteemed citizens. Its object is to do good to bind its members together in a common bond of brotherhood to provide for the sick and needy the widow and orphans and to bury the dead. Some time ago a small piece of land was purchased by the society at the corner of Sixth and Washington streets whereon it was intended to erect a hall for its use. Want of the necessary funds has thus far delayed the commencement of the work and it is for the purpose of raising means to contribute toward the building of the hall that the concert is to be given. No pains or expense have been spared by the society in getting up this concert to make it chaste entertaining and as intellectual as the musical character of the occasion will permit. Elsewhere we publish the programme in full. To all we would say if you wish to give money towards a very laudable object and at the same time enjoy yourself do not fail and attend the concert this evening.

PERSONAL

Mrs Asahel Bush accompanied by her daughter arrived from the East on the last steamer.

We acknowledge a call from Mr B N Rowley commercial correspondent of the San Francisco *Journal of Commerce*. Mr Rowley will remain in the city several days and will also be in attendance at the State Fair.

BUSINESS NOTICES.

This afternoon at 3 o clock the pews in the Presbyterian Church will be rented for the ensuing year.

To-morrow the auction sale of 300 000 feet of lumber by A B Richardson will take place on First street, in Caruthers Addition. The cars run directly past the lumber yard.

FROM THE ASHES.

TWO MONTHS SINCE THE FIRE WONDERFUL IMPROVEMENTS IN THE BURNT DISTRICT

Two months ago at 4 o'clock A M the fire bells of the city sounded the tocsin which gave token of the presence of the fiery demon. Within six hours from the time the alarm was given 20 blocks were swept away and over a million dollars of property destroyed. It was by far the most staggering blow which has ever been dealt the city. The prediction was made immediately after the fire that Portland would not fully recover from the terrible effects for the next five years to come. There appeared to be good reason at that time for such a disheartening prediction. But if any one will take a walk through that portion of the city over which the flames swept with such a remorseless stride only *two months ago* they will be convinced that those who made such predictions are false prophets. Such improvements as are in progress now in that portion of the city would be wonderful if made under ordinary circumstances but when the fact is considered that the persons who are now engaged in rebuilding are the ones who sustained the heaviest loss it becomes a matter of still greater wonder. Had any person just after the fearful holocaust said that the city would have recovered so rapidly they would have been regarded as most visionary and extravagant. But so it is. The burnt district has rose from the ashes of its late terrible misfortune and is rapidly regaining what was so suddenly and unexpectedly swept away. Chicago affords a most wonderful and unparalleled instance of American enterprise and energy as evinced under circumstances of peculiar misfortune. Portland younger less matured and less able to bear the brunt of such a powerful stroke has not been found deficient in those elements which caused the Queen City to rise triumphantly from her tears and bed of ashes and become great strong and rich as before she felt the smiting hand of the destroyer.

Yesterday we walked through the district of brick and mortar, to note the great improvements in progress. The following are the principal buildings which are finished or now in course of construction.

Six brick buildings are nearly finished on Front street, between Yamhill and Taylor. Each of these buildings are 25x80 feet, one story high. These buildings are being constructed by Messrs A Meiers Dr W Weatherford and Walter Moffett.

Mr J A Strowbridge is building a two story brick, 25x80 feet adjoining the above structures. All these buildings will soon be finished and ready for occupancy.

Excavation has begun at the corner of Front and Taylor preparatory to the erection of a row of brick buildings—four in number—by G W Vaughn. These buildings are to be 20x75 feet each one story high. Work will be commenced as soon as material can be procured.

Walter Moffett is constructing two brick buildings on Front near Main street. These structures are each one story high 25x80 feet. In a few weeks both will be finished.

J F Jones & Son have just finished a one story brick, 25x80 feet, on the same site where their wooden building stood before the fire.

Mr Jas B Stephens has erected a wooden building near the corner of Main and Front. The house is used as a blacksmith shop. It is 25x50 feet, and has been finished several weeks.

We found a large force of masons and carpenters at work at the corner of Madison and Front, on the new brick market which is being erected by Mr. Bunnell. This building is fifty feet wide and extends through from Front to First streets. It will be two stories high. The brick work for the first story is nearly finished.

Mr. W F Wilcox has erected a large two-story wooden building—a carpenter shop—on Front near Jefferson. This building is 24x50 feet.

Adjoining the last mentioned structure Mr Ed Smith finished some time since a large two story wooden building for a blacksmith shop and carriage factory. The building is 40x50 feet.

A small wooden house, 15x35 feet, one story, has just been built by Dr G Kellogg as an office and residence, on Front, above Jefferson.

Jos. Knott is building a large splendid two-story residence, near Front between Jefferson and Columbia. The building is about half-finished.

The residence of Mr John Rines on Clay street, below Front which was destroyed by fire has been replaced by a neat and substantial wooden building, 30x33 feet, two and a quarter stories high. It is almost completed.

T A Wood has erected a small wooden building on Front, near Clay. It is 25x50 feet, one story.

Another wooden building two-stories about 25x60 feet has just been finished which adjoins the last one mentioned. Dr J G Glenn, we believe, has erected the structure.

Mr John Honeyman whose building was entirely destroyed, has Phœnixed lively. Twenty-eight days after the fire he had erected a wooden building and began casting. He has added to the dimensions of his foundry, which is now two-story, and 75x50 feet. Fifteen men are constantly employed, and the foundry is rapidly turning out work.

Samuel Sykes is rebuilding his brewery on the same site occupied by the former one. The present structure will be when completed 50x100 feet two stories high. In a few weeks the building will be completed.

Perry Davis has erected near the corner of First and Jefferson two wooden buildings—each one story—one 20x47 feet and the other 25x65 feet. In addition he has constructed a small dwelling house between these two buildings.

A large force of carpenters are engaged on the large three-story wooden building at the corner of First and Jefferson which will be used as a boarding house by Mr Jas Thompson. This building is 25x100 feet. Within three weeks it will be ready for occupation.

Mr J M Fryer has just finished a one story wooden building which he is occupying as a store until his brick which was destroyed by fire can be erected. This building adjoins Thompson's new boarding house and is 25x75 feet.

Next door north of this building stands the wooden engine house erected some weeks ago in which to house Protection No 4's steamer. The building is one story and about 25x40 feet.

Just north of this stands a wooden building erected several weeks since by Messrs Thomas & Jenn. This structure is two stories high and 18x40 feet.

Mr J S Keller has completed a large wooden building—two stories high—at the corner of Madison and First. Its dimensions are 24x66 feet.

On the same block at the corner of Second and Madison Mr Keller is also erecting two neat and handsome residences. Both are two stories high 18x22 feet respectively.

J Hudson finished a few weeks ago a small wooden structure near the old brick engine house of Protection No 4. Its dimensions are 20x30 feet one story.

The large bakery of Messrs C Hill at the corner of Madison and First which fell a prey to the fiery monster on that Black Saturday has been replaced by a very handsome structure two stories high and 25x100 feet. This building was finished some days ago and the bakery is again in full blast.

Mr J M Fryer is having the debris removed from where his brick store stood on the corner of Madison and First preparatory to laying the foundation for a new building, of the same dimensions as the former.

Smith Bros whose enterprise is so well known are pushing their building forward to completion. This foundry will be 60x100 feet. The machine shop will be about fifty feet square and two stories high and the casting room one story. From present appearances the building will be finished in two weeks more.

Richmond & [illegible] have just completed a large wooden building on First near Taylor two stories high and [illegible] feet.

A row of brick buildings erected by Messrs Spaulding & Johnson are nearly finished. These structures stand on the corner of Taylor and First. The row is divided into four storerooms each [illegible] feet one story high. They will be ready for tenants in two weeks.

Adjoining this last mentioned row south another row is rapidly approaching the finishing touches. The row is divided into five storerooms each 20x75 feet and 17 feet in the clear. Iron fronts will be used and a fire-proof roof. The row will be one story high. Contrasting with the old wooden tenements that formerly adorned the site before the fire, these buildings will present a handsome and greatly improved appearance.

Diagonally across First street from this row stands a splendid wooden structure just finished last week. It was built by Mr S G Skidmore. This building is 60x100 feet two stories high. It is one of the most handsome and substantial edifices of the kind which has been erected in the city the present season.

North from Skidmore's building across Taylor street a splendid brick is in process of construction by Mr Quimby. This building will be 80x80 feet two stories high. It will be finished within a month.

Three small wooden buildings have just been finished by Mr John Fenner at the corner of Second and Yamhill. Each of these tenements are 18x30 feet and one story.

On Taylor street, near Second Mr Wm Ackers is building a large wooden livery stable 40x100 feet two stories high. The front portion of the building is completed, and is being occupied.

Charles Brown has rebuilt his ice factory on Second street between Main and Madison. It is a wooden structure about 50x50 feet and two stories. The factory has been finished over two weeks and is turning out large quantities of ice daily.

In addition to the above improvements we have noted there are some seven or eight small wooden buildings that are finishing and scattered over the burnt district.

The improvements mentioned will we trust indicate the spirit pluck and energy possessed by our citizens. The results of only two months labor make a most astonishing as well as gratifying showing to the credit of Portland enterprise.

COMMON COUNCIL.

REGULAR MEETING OCTOBER 1 1873

The Common Council of the city of Portland met pursuant to ordinance, His Honor H Failing Mayor in the chair. Caldwell Clerk, and Capt Brannan.

Members present—Besser, Burton Hoyt Lyon Moreland and Story.

Minutes of last meeting read and approved.

COMMUNICATIONS

A communication was read from his Honor the Mayor, vetoing the ordinance authorizing the contract for the erection of an engine house for Vigilance Hook and Ladder Co, No 1. The veto was based on the fact that a defect existed in the title of the land. The veto was sustained.

A communication was read from the Mayor vetoing the cancelation of the contract for the improvement of Harrison street and the reletting of the same. The veto was sustained.

PETITIONS

From L A Daugherty asking for the erection of a lamp at the corner of Tenth and E streets. Granted.

A petition was read from Corbett, Failing & Co and others, asking for purchase of a general alarm fire bell and the erection of the same, and also the purchase of an automatic telegraphic signal to be used in connection with the same. The petition was placed on file. The following is the petition:

To the Hon. Mayor and Common Council of the City of Portland—GENTLEMEN Inasmuch as you have passed Ordinance No. 1380, authorizing a loan of $20 000 for a term of years and section one thereof provides —"The disastrous fire of August 2 1873, having rendered necessary certain extraordinary expenditures in connection with the Fire Department in the rebuilding of Engine Houses, *the providing a more effecient system of Alarms &c*"

Now, therefore, we the undersigned, your petitioners believing that it is the best policy to procure an alarm bell of sufficient dimensions say 4,000 lbs. weight at least to effect an alarm to be heard in every part of the city rather than to purchase several smaller bells for the different engine companies, now asking for or requiring them which together in the aggregate will cost about as much as a large bell.

And further, we believe that if you will provide for the erection of a suitable alarm bell and also cause to be erected the "Automatic Fire Alarm Telegraph in connection therewith you will thereby provide *the most efficient system of Fire Alarms now in use*.

We the undersigned your petitioners therefore ask your Honorable Body to purchase a large alarm bell and to erect the Automatic Telegraph Alarm as soon as possible and as in duty bound they will ever pray &c

VICTIMS OF OBSCURE DISEASE, seeking safety and restored health should use Dr Helmbold's Extract Buchu. This article is official and standard. It is moreover the only preparation that develops the full value of Buchu as a diuretic. It is a perfect specific for all diseases of the urinary organs in male or female. There is no disease flesh is heir to more troublesome to manage than rheumatism. It comes when you least expect it and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is *Johnson's Anodyne Liniment*.

The Tonic of the Period.

This is a trying season to persons deficient in stamina and out of health. To rally their physical energies by the most approved artificial means is a duty they owe to themselves. Foremost among the tonics and alteratives of the age stands Hostetter's Stomach Bitters. It is a vegetable stimulant and corrective, against which no tenable objection can be urged. There is no risk in recommending it as the best preparation in existence for renovating an enfeebled and broken down system. The most valuable medicinal products that nature has ever yielded to botanical research are blended in this famous elixir, and its stimulating basis is recognized in our public hospitals as the purest of all varieties of distilled liquors. For general debility nervous weakness, dyspepsia constipation rheumatism billiousness and intermittent fevers it is a positive specific.

THURSDAY MORNING OCT 2, 1873

A DESPERATE AFFRAY

STRUGGLE FOR LIFE BETWEEN TWO POWERFUL MEN—TWO [illegible] BADLY HURT

[From the Gold Hill News, Sept 29]

This afternoon the Gold Hill Foundry was the scene of a terrible and bloodthirsty affray. It appears that [illegible] past John Nagle who was formerly employed in the foundry, has entertained a great spite toward Patrick Karvin engineer at the foundry, and from time to time has tried to pick a quarrel with him. At half past six o'clock last evening, Nagle met Karvin in the bar room of a well-known saloon situated a short distance north of the Gold Hill Foundry and invited him to take a drink. Karvin declined to drink but took a cigar instead. While they were standing in front of the bar Nagle caught up a bottle and threatened to strike Karvin but did not carry his threat into execution. He then expressed a desire to fight Karvin but the latter avoided an encounter remarking that he did not care about fighting. The two separated for the night Nagle still maintaining a hostile bearing. At about 11 o'clock this forenoon Nagle met Karvin in front of the Gold Hill Foundry and remarked to the latter

[illegible]

Whereupon the two both of whom are powerfully built men clinched and made a desperate effort to hurl each other to the ground. Karvin overpowered his antagonist by a tremendous effort felling him to the earth and pinning him to the ground. James Brown foreman at the foundry, hearing the disturbance, came out and ordered Karvin to let the other man up which he did, whereupon Nagle drew a big butcher knife from underneath his coat and made a lunge at Karvin intending to disembowel him. The knife passed entirely round Karvin and struck James Brown who was standing behind him in the thigh inflicting a wound 1½ inches in width and 3 inches in depth. The blood flowed from the wound freely and Brown was so badly hurt that he was unable to render him but little service in subduing the infuriated madman. Nearly all the workmen in the foundry closed around Nagle and endeavored to wrest the knife from his grasp. Before they succeeded in their efforts Nagle

MADE ANOTHER DEADLY THRUST

At Karvin, this time running the knife completely through the leg of the latter. The point of the knife entered the man's right thigh, about an inch above the patella passing inwardly and downward toward the condyle of the femur and coming out on the right side of the leg, exposing but missing the femoral artery. The infuriated madman in slashing in one direction and another with his huge cleaver brought it down upon William Roughan's left wrist inflicting an ugly wound. He then turned to Thomas Lawther a machinist and threatened to

STAB HIM IN THE ABDOMEN,

The latter protected himself with a large knife. Nagle also threatened the life of David Nivens and Patrick Shady. Karvin fearful of another thrust of the knife, and becoming weakened by the loss of blood, retreated to the loft of the foundry, where he was found by Dr Kirby seated upon the uppermost timbers of the building and holding three chunks of iron in his hands, and daring his adversary to renew the attack, the blood from his wounded limb streaming down upon the floor. By a desperate and combined effort the men finally succeeded in wresting the knife away from Nagle's hands, when he retreated to his house, where he was found a few moments later by Town Marshal Kelly and Constable Harkin. He offered no resistance when called upon to surrender.

THE PETTIFOGGER

[From E. G. Ryan's Address before the Law Class of the University of Wisconsin.]

[illegible] the [illegible] the [illegible] of the [illegible]. He is, as his name imports, a stirrer-up of trifling grievances and quarrels. He sometimes emerges from professional obscurity, and is [illegible] with business which is disreputable [illegible] his own [illegible] devices; for the [illegible] to go his instincts even among [illegible]. He is generally found, however, and he always begins, in the lowest profession[illegible]. Indeed, he is the troglodyte of the law. He has a [illegible] cunning. He mistakes it for [illegible]. He is a fellow of infinite pretence. He pushes himself everywhere, and is [illegible] wherever he goes. You will find him in legislative bodies in political [illegible], in boards of supervisors, in com[illegible]. He is sometimes there for [illegible] villainy, sometimes on general principles of corruption, waiting on Providence for [illegible] job. He is always there for [illegible] temper of his mind, the habits of [illegible] him essentially mischievous. In [illegible] he is always dishonest. When he [illegible] cheats for gain, he cheats for love. He [illegible] low places, and [illegible] with the ignorant. It is his kindly office to set them by the [illegible] and to feed his vanity and his pockets from the quarrels he incites or foments. He is in everybody's way, and pries into everybody's [illegible]. He meddles in all things, and is infallible in mischief. He is just lawyer enough to be mischievous. He is a living example of Pope's truth, that a little learning is a [illegible] thing. Among his ignorant companions he is infallible on all things. Sometimes he is [illegible] and sly with knowing look which gains credit for wisdom and character for thinking all he does not utter. Generally he is loquacious, demonstrative of his small [illegible]. Then his tongue is too big for his mouth, and his mouth is too loose for truth.

NATIONAL SONGS—The composer of the "Wacht am Rhein," who has just died was happy enough to enjoy the full success and [illegible]ity of his composition. No such early tribute of national recognition gladdened the ears of the composer of that far grander piece of war music the "Marseillaise." The "Wacht am Rhein" was not an inspiration of its kind and it hit a long-prevailing mood and came to be the expression of the national sentiment on the very eve of battle. From the earliest days of the war in France it superseded all the older [illegible] hymns of German nationality. Long after events had definitely settled that there was no need of protecting the Rhine and after the "Watch" had left her to take care of herself and gone to pursue the French into Paris, the strains of the popular anthem still proclaimed in every city in the world the [illegible] of Germany to stand by her river. Carlyle calls the "Marseillaise the luckiest musical composition ever promulgated the sound of which will make the blood tingle in men's veins, and whole armies and assemblages will sing it with eyes weeping and burning, with hearts defiant of death despot and devil." There is none of this passionate and stormy grandeur about the Wacht am Rhein which is only at best a song of encouragement and defense, without passion or despair and not by any means up to the level of the unparalleled national triumph which was awaiting Germany at the time when it began to be popular. Still there can be little doubt that it will pass into public memory in association with the events of 1870, as Arndt's song of the German Fatherland is remembered in connection with those of 1813, as Partant pour la Syrie is even [illegible] with Napoleonism and Lillibullero brings with it recollections of the fall of divine right in England.—*London Daily News.*

The Pittsburgh *Dispatch* says Portland Oregon like Boston declines to accept the charity of sister cities but she does it with different motives and with a grace and feeling that does credit to her. The world at large will be glad to learn that the great fire which visited that city early last month though very disastrous, was much exaggerated in the accounts first published. The relief committee at once organized soon discovered that Portland could take care of her own unfortunates and so, even the $13,000 in gold which San Francisco had raised was declined with thanks. The spontaneous and universal feeling of sympathy which prevails throughout an American community in the presence of dire disaster is one of the silver linings of the dark cloud which rests occasionally upon our large cities and there is evoked from it a kindly feeling toward all people who are suffering.

In several recent English elections a [illegible] combination of beer and Bible has been exceedingly ludicrous. In East Stafford lately [illegible] the famous brewer was the [illegible] candidate and in the window of one of the drinking places was a banner bearing the [illegible] Bible, upon which was inscribed the following lines

Holy Bible book divine
Precious treasure, thou art mine
Mine to tell me whence I am
Mine to tell me what I am

And underneath "Shall we have this blessing taken from us? No. Then vote for Allsop."

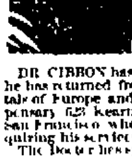
NEW REMEDIES! NEW REMEDIES!

Dr. Gibbon's Dispensary,



623 KEARNEY STREET NEAR COMMERCIAL, San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotence etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe and has resumed practice at his Dispensary 623 Kearney street, corner of Commercial San Francisco where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians friends, attend to those who are suffering with any of these horrible life-destroying maladies. See that they are cared for and cured before it be too late. Send them immediately to DR GIBBON a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is important to those who are afflicted or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions the consequence of self abuse. This solitary vice or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures viz. Sallow countenance dark spots under the eyes, pain in the head ringing in the ears noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

Married Men,

Or those who contemplate marriage who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them, nor delay to obtain immediate relief.

DR. GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charges.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing Ten Dollars coin in registered letter through the Postoffice or through Wells, Fargo & Co a package of medicine will be forwarded to any part of the Union. All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other [illegible], are tradesmen and became too lazy to work at their trades. Some are tinsmiths, shoemakers [illegible] carriers intelligence office keepers etc. The only way to avoid imposition is to make inquiry—it will cost you nothing and may save you many [illegible] for as advertising physicians in eight cases out of ten are bogus there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles certificates pretended patients letters, etc. Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he pro[illegible] to cure.

Address DR J. F. GIBBON 623 Kearney street, corner Commercial San Francisco Postoffice Box 1,957.

REMEMBER TO PUT BOX 1,957 ON THE LETTER. Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the DAILY OREGONIAN. jy6dp
